SUMMARY

I am a self-sufficient web developer and gritty team-player who does not shy away from accountability. I believe loyalty is undervalued and always pay attention to the details. With a myriad of management experience, I emphasize clear, consistent communication and adaptability in collaborative situations.

SKILLS

LANGUAGES	HTML, CSS, JavaScript, SQL, Ruby
FRAMEWORKS	Angular, Express, Node, Rails
LIBRARIES	jQuery, Bootstrap
DATABASES/ORM	MongoDB, Mongoose, PostgresSQL, Sequelize
DESIGN PROGRAMS	Photoshop, Illustrator
OTHER	AJAX, Git, Heroku, Acrobat, Visio, Office

EMPLOYMENT

General Assembly
Web Development Immersive · September 2016 to December 2016 · Seattle, WA

Currently enrolled in a 12-week 90+ hour per week intensive coding accelerator to enhance and ingrain fundamental web development skills and knowledge. Projects are designed to showcase full-stack applications with CRUD functionality and database integration. Throughout the course the use of Git was used for source control and best practices were emphasized via an agile environment using DRY coding, OOP, TDD, peer code reviews, and group collaboration.

Holiday Inn, Downtown Everett
Owner/Executive · June 2004 to June 2016 · Everett, WA

Owned and managed a 243 room, full-service hotel in Downtown Everett. Departments I managed included the Front Office, Sales/Catering, Engineering, Restaurant/Bar, Kitchen, and Housekeeping. Dealt directly with a wide range of business needs, including management of people, revenue management, P&L statements/analysis, accounting, customer service, sales, event management, F&B operations, and HR. Team size during peak season hovered around 100 team members.
